

REMARKS

Claims 1-9 currently remain in the application. Claim 1 is herein amended.

Claims 1-9 were rejected under 35 U.S.C. 112 in Paragraph 2 of the Official Letter. In response to the Examiner's reason for the rejection, independent claim 1 is herein amended to more clearly explain that the two frames are so connected as to be freely rotatable with respect to each other. This structural relationship is clearly supported by the specification and hence this amendment should be deemed enterable. Moreover, this alternative limitation is believed to make the structural relationship between appropriately definite and hence make claim 1 allowable.

In summary it is believed that the application is now in condition for allowance.

Respectfully submitted,
Weaver Austin Villeneuve & Sampson LLP
